Open Letter from School Leaders 4/2018

Dear Parents/Guardian

Important Information...

Refinements to the Primary One Registration Exercise

1. The Ministry of Education (MOE) will be introducing two administrative refinements to the Primary One (P1) registration exercise. The changes will take effect from the 2018 registration exercise.
2. From the 2018 P1 registration exercise, manual balloting by schools will be replaced by computerised balloting conducted centrally by MOE HQ. Similar to the manual process, computerised balloting ensures that all registrants that needed to ballot are assured of an equal chance for admission into the school. Computerised balloting is a secure process which has been used by MOE for the Secondary One Posting and the Joint Admission Exercises for many years. Parents no longer need to make arrangements to physically attend the balloting in schools. This helps to streamline the P1 registration process and make it more convenient for parents.
3. International students will be required to undergo a two-step process for the 2018 registration exercise:
 - **Step 1:** Submit an online 'indication of interest' form via the MOE P1 website, from 5 to 11 June 2018, and
 - **Step 2:** International students, who have submitted the 'indication of interest' form and are notified in October by MOE that they can be offered a P1 place in a school, must register in-person at the designated school during Phase 3 of the 2018 P1 registration exercise (in late October 2018).
4. International students who do not submit the 'indication of interest' form to MOE by 11 June 2018 **will not** be able to register during Phase 3 of the P1 registration exercise.

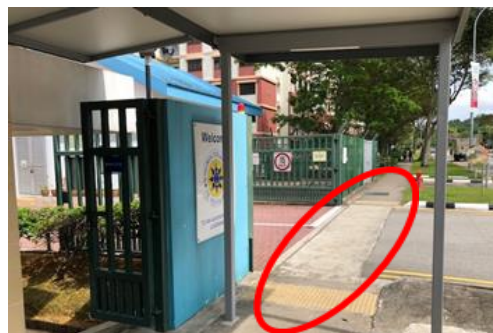

P1 Registration Dates

5. The registration of children for admission to P1 classes in 2019 will be opened from 28 June 2018 to 31 October 2018. More information on the procedures and documents required is available at the P1 registration exercise website at <http://www.moe.gov.sg/admissions/primary-one-registration/>.
6. Details and dates for the different phases of registration for the P1 registration exercise can be found at the following website: <https://www.moe.gov.sg/admissions/primary-one-registration/phases>.

Security and Safety Matters

7. For the safety and security of our students, we do not allow parents/guardians to enter the school to bring food for their children during the meal breaks. If parents/guardians would like to deliver home-cooked food for your child, please make arrangement for him/her to collect the food from you at the main gate or side gate two during the meal breaks. We are also discouraging parents/guardians from depositing food at the general office as this will disrupt learning in class when the child is paged to come down to the general office to collect the food. We seek your kind understanding and cooperation.

8. On road safety, the school is seeking parent/guardians' help to remind your child/ward to exercise caution when crossing the road in front of the main gate (see photo). Your child/ward is to stop and look out for vehicles before crossing the road, in front of the main gate.

Sports Excellence Scholarship

18. We are proud to announce that our ex-student, Charlene Lim Jiayi, is one of the 17 athletes who was awarded the Sports Excellence Scholarship by the Singapore Sports Institute. Charlene's passion in bowling started in Primary 4 when she represented SBPS's Tenpin Bowling Team in national competitions. Charlene is currently representing Team Singapore in international bowling competitions. We wish Charlene all the best as she represents Singapore in the 50th Singapore International Open in May.

Kindergarten Visits

19. Our school has hosted a number of kindergartens who have requested for school visits, to provide a meaningful transition for their K2 children to a primary school. This year a total of 7 kindergartens brought 231 children to visit our school. Our Primary One and Two students were buddies to the K2 children and they have gained much from the experience.

20. The highlight of the programme was the canteen break. Our students showed the K2 children how to queue up to buy food and also taught them proper dining etiquette skills. It was gratifying to note that in the short three and a half months, our Primary One students have assimilated well into our school routines and have grown in confidence.

Concluding remarks...

*“Sometimes life doesn’t go the way you planned...
That doesn’t mean you give up,
it means you have to push harder for what you want...!”
Author Unknown*

24. We need to be proactive and to take responsibility for our lives. We can plan ahead and if we meet with difficulties along the way, we can look for solutions to overcome the difficulties and push on. This term, we are focusing on Habit 1 – *Be proactive*. Let’s hum the same tune by showing our children how they can be proactive. For example, the semestral examination is just round the corner for the P3 to P6 students. We can show our children how to plan a study schedule and to spend their time wisely to revise their work. If anything is worth doing, it is always worth doing it well.

25. Thank you parents for guiding your children and for being their pillar of strength. Have a good term 2 break and do enjoy the bonding with your children.
