

# SUPPORTING YOUR CHILD'S LEARNING

## LANGUAGES

- Encourage reading of various genres.
- Watch or listen to news together.
- Explore educational programmes (e.g. documentaries).
- Discuss major local and global events to boost general knowledge.
- Model proper speech in Standard English and Mother Tongue Languages.
- Use language learning apps and resources in Student Learning Space for practice.

## MATHEMATICS

- Reinforce the idea that math skills improve with practice and effort.
- Encourage resilience in tackling problems step by step.
- Help your child to explore various methods to find answers.
- Ask your child to explain and justify their thinking, and teach them to check if their answers make sense.
- Encourage regular use of KooBits and resources in Student Learning Space for practice and revision.

## SCIENCE

- Point out scientific phenomena in daily activities. Encourage your child to ask questions and make observations.
- Explain how scientific terms may differ from everyday usage.
- Promote the use of concept maps to summarise key ideas, and use these at the end of each topic for better understanding.
- Utilise resources available in the Student Learning Space.
